### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on November 17, 2004 has been entered.

None of the references show all of the features of claim 1. The reference to Lommeth shows the emulsion spread composition without providing for the hardstock fat C, which is required to have been obtained without hydrogenation, fractionation, interesterification or esterification. Further applicant provides a declaration attesting to the advantages of a hardstock having the particular carbon number range of the claims on April 8, 2004. The claims were terminally disclaimed over 10/045,405, now US Patent 6,777,018. The newly cited art to Tafuri, Miller and Bons does not contain enough SOS triglyceride in it to meet the requirements of claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
